Subject: 09/869,098

Please do an interference search and search for the first and last 100 nucleotides of SEQ ID NO: 1 of this application (~3.5 kb), as well as searches directed to the following subsequences within SEQ ID NO: 1 and to which the instant claims are directed (see claim 1 below). Thank you, Gerry Leffers

nucleotides:

284 to 296 of SEQ ID NO: 1

1316 to 1320, position 1364 to 1368, or position 1698 to 1692 of SEQ ID NO: 1

753 to 758, position 1023 to 1030, or position 1450 to 1455 of SEQ ID NO: 1

1428 to 1437 of SEQ ID NO: 1

Claim 1. (currently amended) An isolated DNA containing uncoupling protein-2 (UCP-2) promoter region containing a regulator sequence, wherein the regulator sequence is at least any one of the sequences selected from the group consisting of:

(a) a sequence containing peroxisome proliferator response element (PPRE)

presented by position 284 to 296 of SEQ ID NO: 1;

(b) a sequence containing CCAAT/enhancer binding protein (C/EBP) binding sequence

presented by position 1316 to 1320, position 1364 to 1368, or position 1698 to 1692 of SEQ ID NO: 1.

(c) a sequence containing glucocorticoid response element (GRE) presented by position 753 to 758,

position 1023 to 1030, or position 1450 to 1455 of SEQ ID NO: 1; and

(d) a sequence containing MyoD presented by position 1428 to 1437 of SEQ ID NO: 1.
